

**Media (Pads & Rolls)****AmerKleen® M80****Product Overview**

- Glass fibre pad with progressive density
- Strong resilient design
- Impregnated with gel-like adhesive
- High dust holding capacity (DHC)
- Disposable

**Specification**

|                              |            |
|------------------------------|------------|
| EN779                        | G3         |
| ASHRAE 52.2                  | MERV 5     |
| Media Type                   | Fibreglass |
| Antimicrobial Available      | No         |
| Recommended Final Resistance | 450 Pa     |
| Air Filtration Certificate   | UL 900     |
